

## **LOT NUMBER AND EXPIRATION DATE**

This letter is to certify that your company will commit to print the Lot number and Expiration date outside of the package in a permanent manner. Stickers are not considered permanent, currently only ink jet or stamped expiration dates/lot codes are being accepted by the Mexican authorities.

If your sell unit includes inner packs, it is required to include the lot code, expiration date and one of the following Spanish statements:

- **NO ETIQUETADO PARA SU VENTA INDIVIDUAL**
- **NO ETIQ PARA VENTA**

The accepted date system is “Day. Month. Year”. Example: “16.01.09”. We strongly recommend to use only numbers as monthly abbreviations vary between the US and Mexico.

Format of lot and expiration date on the outside sell unit:

Cad.: DD.MM.YY

L.: \_\_\_\_\_

Format for the inner packs (If applicable)

Cad.: DD.MM.YY

L.: \_\_\_\_\_

**NO ETIQ PARA VENTA**
